

We are a Teaching School Alliance of **cross-phase** schools based in the East of England working with partners across the region and nationally to ignite education.

## The NQT +1 Programme

# NQT+1

### Ignite will be delivering an NQT+1 programme

Our NQT +1 programme targets second year teachers who are aiming to become consistently outstanding practitioners. The focus of the programme is on consolidating practice developed during the first year of teaching and introduce leadership skills.

### What are the aims?

The core aim of the programme is to continue to provide an element of support and networking opportunities to develop consistently outstanding learning and teaching. Further to this, we aim to introduce leadership skills to support teachers as they progress further in their careers. There will be a particular focus on the leadership of learning and teaching.

### Programme Structure

The programme runs over the duration of the school year. Each half term there will be a session with a different focus. It is delivered through face-to-face taught sessions.

“As a primary teacher who was anxious about the step off in support following my NQT year. The +1 programme was a brilliant networking opportunity that allowed me to share ideas and practice across key stages to help me to continue to develop as a teacher”

## What does it involve?

The Ignite NQT+1 programme is half termly. Each session will involve reflection where delegates are encouraged to share best practice on the session focus. This will be followed by discussion around up to date research and provide strategies in order for delegates to review ways of moving forward to secure consistently outstanding practice. Central to this element is the action plan delegates will complete each session to plan next steps. Finally an element of developing leadership capabilities will be incorporated into each session. Over the year, the programme will cover:

- Personalisation – How can we create strategies to remove barriers to learning for all students?
- Raising achievement – How can we raise the achievement of all students?
- Creative dialogue – How can we create strategies to ensure marking and feedback has a high impact on learning?
- Student vs Teacher centred learning – What is meant by this ongoing debate and how can we create strategies that can be embedded on both sides?
- Literacy – How we can create strategies to ensure that literacy is not a barrier to outstanding progress?
- Career development – What comes next? This session will include speed dating with leaders at various levels.

## Venue

Ormiston Venture Academy  
Gorleston. NR31 7JJ

## Cost

£50 for 6 sessions
